DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of prior art alone or in combination discloses the improvement of transient noise in a dc/dc switching regulator that "generates a second oscillating signal having a second period, in which during each period of the second period, the second oscillating signal presents an instantly transiting edge which simultaneously occurs with one selected from a group consisting of the peak and the valley; and inputting the second oscillating signal to a second power supply channel of the plurality of power supply channels such that at least one switching transition of the second power supply channel simultaneously occurs with the instantly transiting edge, whereby: the at least one switching transition of the first power supply channel occurs separately in a time domain from the at least one switching transition of the second power supply channel."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
